---

Attached is an addendum to the application by Aboriginal Affairs and Northern Development Canada (AANDC) for an Amendment (No. 1) to Licence 1BR-DPI1217 issued to the FOX-E Durban and Padloping Islands Remediation Project. It should be noted that the original documents associated with Amendment No.1 were publicly distributed on April 4, 2012 for a thirty-day comment period, and comments have since been received. Under Amendment No.1 application, the Licensee requested changes to Part D, Item 16 and Part K, Item 2 of the Licence.

Along with the revised application form AANDC provided the following information dated 130718:

a) AECOM memo dated January 13, 2013 Durban Island and Padloping Island Borrow Source Geochemistry
b) AECOM memo dated July 17, 2013 Durban Island and Padloping Island – NWB Condition for the Provision of Landfarm Monitoring Wells
c) Revised Project Summaries, attached to the Landfarm Monitoring Wells Memo
d) Photo of Potential Water Source

Under the addendum to Amendment No. 1, the Licensee is requesting authorization from the Board to use water from a source that is closer to the camp facility than the one original approved under the licence. Given the limited scope of the addendum and the Licensee's desire to have a Board decision for this request in time for this year's field season, the NWB has decided to shorten the review period for the addendum to ten (10) days.

Please provide any addition comments on or before August 1, 2013.

Regards,

Phyllis Beaulieu- ᕿᓚᒃ ᐳᓚᐅ
