Dear Ms. Chadwick,

In regards to water licence 2BE-PER0610, an inspection was last conducted in July 2009. The inspection report noted outstanding issues with respect to the camp closure under the water licence. To date, these issues have not been addressed (and no further documentation provided to the Inspector), and no Compliance Plan was received.

Attached for your reference is a copy of the 2009 Water Inspection Report and an email from Oct 18/10 from the NWB to Canterra advising that no further information has been received from the company in regards to closing this file.

A Compliance Plan is still outstanding, and is requested within 45 days on receipt of this email. Please confirm that you have received this email and are able to open the attachments.

Thank-you,
Melissa Joy
