NOTES GÉNÉRALES / GENERAL NOTES

LEGEND

- 31 m Shoreline Setback
- Proposed Infrastructure
- Contact Water Pond Catchment Area
- Pad U Diverted Catchment Area
- Contact Water Pond at Maximum Water Elevation (El. 30.8 m)

NOTES

1. All units are in meters unless otherwise specified.
2. Contours shown at 1m interval.
3. All drawings are scaled appropriately for D–Size drawings. These drawings can therefore be plotted at half size to fit D–size. Scales may not be correct if these drawings are reproduced and presented in any other format.
4. All drawings should be read and interpreted in conjunction with the latest Earthworks Technical Specifications Document ('Technical Specifications – Earthworks and Geotechnical Engineering – Hope Bay Project, Nunavut Canada – Issue for Construction' prepared by SRK). If contradictions are identified, the on–site engineering representative should be consulted to determine the correct specification.
5. The Pad U rock storage area shall be a minimum of 1.0 meters thick.
6. Notes or specifications on any of the drawings apply to all current drawings in this drawing set.

REFERENCE

1. Coordinate system is UTM Zone 13, NAD83.
2. Contours developed from LiDAR survey data provided by Client, captured September 2024.
3. Aerial imagery provided by Client, captured September 2024.
