---

Hello Ms. Lassonde,

Please find attached the final inspection report and photos from July 4 2012. This report was prepared following an administrative review of your file. I am pleased with my findings on-site; I believe Shear is working very hard to meet all the requirements of the water licence. I thank you for the time you were able to spend with me on-site; I understand that you had engagements elsewhere that prevented you from staying for the whole inspection. Your staff were courteous and fully engaged in the inspection, making my visit both pleasant and productive.

Please do not hesitate to contact me should you have any questions with regard to this report or other matters pertaining to your water licences.

Regards,

Eva Paul
