Subject: Nunatta Environmental Services Inc.'s "Land Farm"

Hi Sean,

I just finished a conversation with the City of Iqaluit's Director of Planning and Development, Arif Sayani, who confirmed that the City would not be requiring additional permits for the project to continue. Therefore, as the only government permit required for this project is exempt from NIRB screening as outlined in Schedule 12-1 of the NLCA, then the permit can be issued.

Please let me know if there are any further questions or concerns.
