Dear Phyllis,

The remediation of FOX-5 was completed in 2006, according to the documents posted on the Nunavut Water Board's ftp site all annual reports have been posted up to that date. In the years that followed 2007, 2008, 2009, and 2010 the only work that was done at FOX-5 consisted of Landfill Monitoring. The reports for 2007 and 2008 can be found on the Nunavut Water Board's ftp site under the monitoring directory. The 2009 and 2010 monitoring reports I do not see on the ftp so I will prepare copies of these reports and will ship them to your office in Gjoa Haven, they are much too large to send by email (5-10 MB). In 2011, additional work was completed for which an annual report was submitted and it can be accounted for on the NWB ftp under the General – Annual Reports directory for that site. In 2012 the site had a monitoring event, the report for this has not been received by DCC yet, it is expected over the next few weeks. Once we receive the report a copy will be sent to the Nunavut Water Board.

For further information, 2013 will also consist of a monitoring event, however after this year the site will not have another monitoring event until 2016.

Regards,

Tamara

Thank you for the response Eva. It would be appreciated if yourself and Tamara would review the documents received and indicate which are considered annual report submissions. It does not appear that they were received in this office for the years mentioned. Sean, I would appreciate it as well if you would review the two folders and confirm your findings. Thank you.

In the meantime I will prepare and distribute the amendment/renewal for the 30 day review.

Hi Phyllis,

The annual reports for 2008, 2009, and 2010 would have consisted of the Landfill Monitoring reports sent to you by DCC. There was no work completed at the site in 2012. Tamara Van Dyck from DCC will be sending a note regarding all of the sites (excluding the construction sites) with information on the landfill monitoring completed or whether nothing was done in 2012. Let me know if you need copies of the 2008-2010 landfill monitoring reports sent to you.

Good day Eva and Tamara:
The NWB has noted through our preliminary review that no annual reports were received for 2008, 2009, 2010 or 2012. Would you have copies of those available?
