Hi Greg,

The application is currently undergoing a Technical Review. I had asked the Technical Advisor on the file for an update on the file. The application is incomplete and requires more information. You should receive a letter of request some time tomorrow from the Technical Advisor on the file.

Megan

Subject: Status of Application

Hello Megan,

Qikiqtaaluk Environmental Inc submitted an application to the Nunavut Water Board for a permit to treat contaminated water in Iqaluit and discharge it. I believe that our file number is 1BR-THI. Can you please give me an update on the status of this application?

I just want to make sure that our application is complete and that nothing is holding up the application process at this time.

Thank you,

Greg Johnson, M.Sc.A., P.Eng.
