Date: Friday, June 22, 2012 2:12:07 PM

Hi Phyllis,

In response to the proposed Amendment for 2BB-MEL0914 to increase the water drawn for camp use from Meliadine Lake from 25-45 cubic metres/day, I have no concerns with the proposal provided DFO's Protocol for Winter Water Withdrawal from Ice-Covered Waterbodies in NWT and Nunavut is followed. I've provided the link:
http://www.mvlwb.ca/WLWB/Registry/2010/W2010C0005/W2010C0005%20-%20Land%20Use%20Permit%20Application%20-%20DFO%20Water%20Withdrawal%20Protocol%20-%20Aug%2025_10.pdf

Regards,

Liz

Hi Phyllis,

I am new to Fisheries and Oceans Eastern Arctic team, soon to be working out of the Iqaluit office. I've been forwarded your email below to respond. I'm having some difficulty locating the application

mentioned below on the FTP site. I was also forwarded the attachments to your email - perhaps that is the same thing?

Also, what is the deadline for which you're seeking a response?

Thank you

Subject: 120531 2BB-MEL0914 Amendment 5, Reallocation of Water

To all Parties:
The Nunavut Water Board ("NWB") acknowledges receipt, on May 30, 2012, of an amendment application for a Type "B" water license for water use and waste disposal associated with activities in the Kivalliq region of Nunavut. The application is **for a reallocation of water use** and consists of the following documents:

- Cover Letter dated May 30, 2010
- Application for Water Licence Amendment

The application can be obtained from our ftp site under PRUC with Username: public, Password: registry.

The NWB undertook a preliminary review of your application and concluded that it meets the requirements of section 48(1) of the *Nunavut Waters and Nunavut Surface Rights Tribunal Act* ("Act"). However, the NWB retains the right to request additional information and studies pursuant to sections 48(2) of the Act or to issue guidelines for the provision of information pursuant to section 48(3) of the Act. A NWB Technical Advisor may be in touch with you to clarify any technical details related to your application.

In accordance with S.11.5.10 of the *Agreement Between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada* ("NLCA"), prior to the application being fully processed by the NWB the project proposal shall be reviewed by the Nunavut Planning Commission ("NPC"), to determine whether the project proposal is in conformity with an approved land use plan. By copy of this letter, the NWB requests the

NPC provide its determination and recommendations to the NWB pursuant to Sections 13.4.2 through 13.4.5 of the NLCA, or written confirmation that the project proposal falls outside the boundaries of an approved land use plan. Also, by copy of this letter to the Nunavut Impact Review Board ("NIRB"), the NWB requests that if the project proposal requires screening, the NIRB provide the NWB with a determination pursuant to Section 13.5.1 of the NLCA. If the project is exempt from screening pursuant to Schedule 12-1 of the NLCA, the NWB requests written confirmation from the NIRB that the project proposal is in fact exempt from screening.

To ensure this application is dealt with in a timely fashion, the NWB forwards notice of all documentation to regulators and council of the municipality(ies) most affected by the project, inviting interested parties to make representation directly to the NWB *within 30 days from the date of this letter.* The NWB may provide additional procedural instructions once the application has been reviewed by interested parties.

Subject to Sections 12.10.2 and 13.5.5 of the NLCA, where a review is required pursuant to Article 12, the NWB shall not approve any water application that forms part of that review until Article 12 has been complied with.
Regards,

Phyllis Beaulieu
