Date:	Friday, November 16, 2012 1:29:09 PM

Hello Stephane and NWB,

Please be advised that in early October, KIA forwarded the monthly monitoring data for the Meliadine site to an independent water quality expert for review. Please understand that our silence on the issue of continued sewage discharge this season in excess of water license guidelines is by no means an indication of approval on our part. KIA has expressed our concerns both verbally and via emails numerous times over the years with little to no results.

Sincerely
Stephen
