---

Just a short note to let you know that the Preliminary Economic Assessment for the Back River Project was released earlier today. The press release is attached. As you can see it shows very positive and exciting results for the Back River project.
Currently, the Project Proposal is getting the final touches and will be submitted in mid-June to the authorizing agencies. Some of my team and I will be undertaking a 2 week community consultation tour starting June 11. During that time I will be hand-delivering the Project Proposal documents to NIRB, NWB and KIA. Additional copies will be mailed to AANDC and others.

We look forward to working with you and your teams as the Back River Project proceeds through the Environmental Assessment process in the coming years. I'm not sure of NWB's schedule on Wednesday, June 20th but I will be in Gjao Haven and I'd be happy to come into your office and present the Project Proposal and answer any questions you may have.

If you have any questions or need additional information please do not hesitate to get in touch with me by e-mail or phone.

Thanks, Matthew
