Hello Phyllis,

Attached please find a NWB Application for Water Licence Renewal pertaining to Kivalliq Energy Corporations NWB Licence 2BE-ANG0813 authorizing water usage on the Angilak Property. A hard copy package containing the Renewal Application and supporting documents was sent by mail earlier today. The full package is too large for conventional email.

Nunavut Water Board Licence 2BE-ANG0813 was issued to Kivalliq Energy Corporation on August 5, 2008. It was amended on January 25, 2010 to allow the relocation of the exploration camp to its current location on New Yat Lake (Nutaaq Camp).

On July 16, 2010 licence No. 2BE-ANG0813 was amended to increase the daily water use to 100 cubic metres to accommodate additional diamond drills on the property.

To date, we have conducted approximately 85,000 metres of diamond drilling and reverse circulation drilling under the authorization of licence 2BE-ANG0813.

Exploration activities to be conducted under a renewed licence are consistent with those approved and undertaken on the project to date.

No change in water usage from our current approvals is applied for or contemplated under this Application for a Water Licence Renewal.

Please don't hesitate to contact me by phone or by email should you have any questions or concerns.

Regards,

Andrew Berry
