Hi Phyllis,

In the letter I sent requesting closure of the water licenses several weeks ago there was a summary for each of the licenses which I believe referenced the associated land use permits (both KIA and AANDC) for the NWB licenses.

I think that there may have been a few listed on the closure letter from the KIA that referenced some simple access licences that were obtained for staking (I am reaching many years back into my memory here as I am not in the office today, so I may be wrong) that may not have been mentioned in the summaries that I prepared, but for the others they should match up.

If you still cannot match them up from the summaries in my letter let me know and I can send you a list next week when I go in to do the closure applications for the licenses.

Thanks!

Nicole

> Hi Phyllis,

Thank you for confirming the status of the water use fees for those files.

Since the submission of the request to close Type “B” Nunavut Water Board Licenses 2BE-CAN0608, 2BE-TRE0608, 2BE-SIL07009 and 2BE-NTI0507 I have obtained a copy of the letter that was issued by the Kitikmeot Inuit Association on November 22, 2011 confirming closure of several of the land use licenses associated with these projects.

I have attached a copy of that letter for your files.

If you have any questions regarding this correspondence please do not hesitate to contact me.

Best regards,

Nicole Westcott

Good day Nicole:
Thank you for your email referencing the above files. Please be advised that all water use fees associated with all of the files listed above are paid in full.

Regarding 2BE-CAN0608, I believe that a misdirection was issued on September 2, 2008, in the form of a letter from the Nunavut Water Board (NWB) advising that the file was closed. Until a final inspection is completed by the Water Resources division of Aboriginal Affairs and Northern Development Canada (AANDC), the file cannot be closed. Sorry for any inconvenience that may cause.

We are having problems at the moment in locating anyone available for Inuinnaqtun translations. I’ve sent an email to NIRB in CamBay and hopefully they can provide assistance in this area. In the meantime Inuktitut translations are acceptable.

Best regards,
