Good afternoon Sean, Phyllis

Email is to confirm that a NPC conformity determination is not required to the NWB 2BE ANG0813 renewal request.

This file as submitted was reviewed for conformity under an KIA application in March 2012 to which you received a NIRB notice on the NPC conformity determination. Also, the terms to which the proponent agreed under a previous NWB file in 2008 are still in effect.

I have attached the KIA terms and the NWB 2008 terms as agreed by the proponent . These terms are still in effect and must be included an any authorization that is issued.

If you have any questions and or concerns, p[lease do not hesitate

Hi Shawn, we will process this request, thanks for the quick call. II am alos verifying with you and the

NWB that we have not in the recent past any request for review on this particular file as well as for file NWB 2BE GRE1012.

Shawn, please provide the notice or review request for both 2BE ANG and 2BE GRE. We do not have them in our system.

Thanks
Brian

Good morning Brian,

Could you please confirm whether or not the NPC will be issuing a conformity decision for the above-mentioned application. I know that we have on file the original NPC conformity decision for the project as well as conformity decisions for the two amendments associated with the licence; however, we would like some form of confirmation from the NPC with respect to the renewal application.

If you require additional information on this file, please do contact me at your earliest convenience.

Regards,
Sean
