Hi,

Henry (RMO Kivalliq) has advised me as follows;

Hi Andrew,

I did an inspection of the old airstrip, at Edehon Lake on August 27th. The site is 100% better.

Henik Lake Adventures had done a lot in cleaning up the site. They've collected all of the debris and garbage into empty drums that littered a large area, at that site. I had asked them why everything wasn't hauled out. Their plan is to haul all the empty drums and empty propane out this winter. They feel it is much more economical to this, instead of chartering a plane to haul several plane loads.

I am confident that this will happen, and we should give them a chance to do this.

I understand Tri Origin's concerns, however, they should be rest assured that their permit will be recommended for clearance this year or early next year.

If you have any questions, please do not hesitate to email me.

I will send picture/s by airvelope on Monday, of the drums and propane that they collected and will be hauling out this winter.

Given the above, AANDC will not be approving the closure of the LUP or Water License at this time. Upon removal of the materials site and a successful final Inspection by the Inspector we will advise the board to cancel the License.

Dear Ms Beaulieu,
I received your email of today (September 20, 2012) requesting information on the cancellation of Tri Origin's water licence. I have re-attached letters and other correspondence sent to your office on July 20th of this year. Obviously, you did not receive the earlier correspondence and I apologise for that. I would appreciate notification of your receipt of this email.

I look forward to working with you to resolve this matter. Please review the attached and contact me if you have additional questions.
Regards,
Bob
