Subject: RE: 130412 8BC-MRY---- QIA Request Deadline Extension-OMLE
Date: Saturday, April 13, 2013 11:35:42 AM

Baffinland acknowledges receipt of this extension request and recognizes that it would be in the best interest to allow the extension. We do however request that this extension not create a delay for the possible timeline for the Board to issue a new Type B licence, that will allow critical early works to remain on the company's schedule to commence by mid-May.

It has been noted to Water Board staff, that all parties will be at the Water Board hearings April 23-25th in Pond Inlet, so there is an opportunity for a discussion – Q and A session briefly on this Type B application prior to the commencement of the Type A hearing, if required.
