Thank you Ken. Please note that the spills are to be assessed, reported, and cleaned up by qualified personnel.

Regards,
Eva Paul

Thank you for this report. Please note that we were in touch with TMAC's Expeditor last week and arrangements are being made to have the fuel removed. We will advise on our progress in dealing with these issues.

Regards,

Ken

Subject: August 10 2013 Inspection of 2BE-HBP1116

Hello Mr. Armstrong,

I was working in the area and conducted an opportunistic inspection at the Hope Bay Project (water licence 2BE-HBP-1116). Please note that there are matters requiring immediate attention on-site. I would suggest that there is the potential to work with other companies in the immediate vicinity to mitigate the risks posed by the unattended fuel cache.

A follow-up inspection was also conducted by Mr. Pedersen under the Land Use Permit and will be addressed separately.

Regards,

Eva Paul
