Good afternoon Mr. St. John,

I will be conducting an inspection of water license 7BL-EDE0611 and Land use permit N2006J0030 this summer in the month of July. While it is to early for me to give formal dates I would like to inform you that water use fees and annual reporting for the site are outstanding and are required by this Inspector -undersigned- before July 15th, 2013.

Please see attached a copy of your water license

As per Part B General Conditions of your license
item 1
" The water use fees of $30, payable to the Receiver General for Canada, shall be sent to the Board annually in advance of any use in accordance with Section 9 of the Regulations"
item 2
Licensee shall file an Annual Report on the appurtenant undertaking with the Board no later than March 31st of the year following the calendar year being reported which shall contain the following information:
i. A summary report of water use and waste disposal activities, including photographic records of the camp showing the water supply and waste disposal facilities;
ii. A list of unauthorized discharge and a summary of the follow-up actions taken;
iii. A up-to-date copy of the spill contingency Plan;
iv. A description of all progressive and or final reclamation work undertaken, including photographic records of the site conditions before, during and after completion of operations;
v. Results of the Monitoring Program; and
vi. Any other details on water use or waste disposal requested by the Board by November 1st of the year being reported.

I have attached for your convenience a standardized Annual reporting form which has sections that can be filled out; any section that is not applicable please write a short rationale.
e.g " No activity was conducted under this license for that year."

Also attached is a guide to understanding the annual reporting process if need be.

As per *Part B item 7* "all communication with respect to this licence shall be made in writing to the Nunavut Water Board Manager of Licensing *licensing@nunavutwaterboard.org* 867-360-6338 ".
I encourage you to contact them immediately to calculate water use fees and discuss the new water regulations and renewal of the water authorization.

I remind you that the terms and conditions of your water license still apply regardless of the date of expiry.

As mentioned above annual reports and water use fees are due on July 15, 2013. If an extension is require please contact the inspector before June 30th, 2013

Failure to undertake the actions required as described in this letter, and to the satisfaction of the Inspector, may result in enforcement action(s) being undertaken pursuant to the *Nunavut Waters and Nunavut Surface Rights Tribunal Act*.

I will be the main point of contact on this file until these issues are resolved seeing that both authorization are past the expiry. Once I have reviewed the correspondence on the N2006J0030 Land authorization a formal letter will be sent to you with regards to the outstanding issues noted during the 2010, 2011, 2012 inspection. All issues are to be resolved before July 2013 as they are becoming ongoing.

Please feel free to contact me at anytime I will be in the field starting on July 5
