Hi Saz – sorry for taking so long to respond, it's been pretty hectic here these past few months. Your water use fees are $365.00 for 100 m3/d authorized. This amount is due and payable on June 10, 2012. The licences are not issued for the time that a company is active in the field but by year and therefore the fees are calculated on a yearly basis (for the authorized use of water, not actual amount). The odd amount calculated previously was because of an amendment requesting an increase from 55 to 100 m3/d. It was therefore prorated to reflect the change.
Regards,

Hi Phyllis,
I wanted to confirm that this licence is current with respect to water use fees for 2012?
I'm confused as to the date range this is valid for, or are you awaiting the annual report for the 2011 season?
If there are fees currently owing, you may call me at 403 578 3244 and I will pay them by credit card.
Best regards
Saz
