Dear Mr. Timmons,

I did respond to Alexander Po's letter (see below). The Board informed that outstanding items from the previous license are not related to the AANDC land use permit. Mr. Po's letter indicates that you *have been paying diligently the annual Land Leas Fee to the Government*. However, one of outstanding items from previous licence is the missing payment for **water use**.
Please be advised that the NWB will process your licence application once outstanding items are addressed.

As it seems that there is an misunderstanding I suggest to have a teleconference to clarify the issues associated with the file. Please feel free to propose a time for it.

Regards,

Karén Kharatyan, Ph.D

Subject: 2BE-DIS Water Licence Application

Dear Mr. Po,

The NWB received your response letter on February 3, 2012. Your letter stated that you did apply to the NWB for the previous license renewal on **April, 2010**. Please be informed once again that the NWB did not receive any application for the 2BE-KUG0810 licence renewal. Besides, the NWB

asked the applicant on **November 2, 2010** whether or not the company plans to renew the licence, and informed the licensee about outstanding issues (see attached). No response was received at that time.
After having received your application for a new licence on February 23, 2011, the NWB informed you about the outstanding issues from the previous licence. The last letter was sent to you on **September 12, 2011** (see attached). Again, no response was received.

The attached letters indicate the outstanding issues from the 2BE-KUG0810 licence. The NWB advise the applicant once again, that the Board may continue to process the licence application once the outstanding items from the previous license are addressed. The NWB January 27, 2012 letter indicated that should this information not be provided within the next thirty (30) days of the notification (*or by February 27, 2012*), the Board will consider canceling this licence application at that time.
