Good afternoon Sharleen

Email confirming that the above noted exploration program falls outside an approved planning boundary, therefore a conformity review is not required by the Nunavut Planning Commission.

Any questions, concerns, please do not hesitate.

Hi Brian,

We are seeking an amendment for our Type B water licence # 2BE-LEP1217, for our exploration program at Lupin. The purpose of the amendment is to increase our water withdrawal volume to accommodate an expansion of our drilling program, within the areas permitted under the existing licence.

Can you confirm that an NPC conformity review is not required?

Thanks,
Sharleen
