Good morning Stephen,
I hope I have your email address correct, the gmail address is the one that Phyllis has on our distribution lists.

I am just following up on some correspondence that was received by Phyllis with respect to the Mary River Project (and sent directly to Dionne) regarding "Proposed Next Steps in the NWB Licensing Process". The correspondence will actually be referred to in a letter going out from the NWB, hopefully today, however as it appears as though there may be some need in assisting the QIA in the interpretation and understanding of the NWB licence application, review and hearing process as a whole.

I was wondering if it might be beneficial for your team to meet with myself, Sean Joseph and possibly Phyllis Beaulieu sometime this next coming week in Iqaluit. We will be attending the Nunavut Mining Symposium that will be starting on the 16th April, however we are planning on arriving in Iqaluit on the 13th April to participate in some joint meetings over the weekend and Monday. Would you be available at anytime after our arrival in Iqaluit around 5pm on Friday, over the weekend or possibly later on the 16th Monday? We also may have some time available on Tuesday, however the day is quickly filling up with proponents scheduling in time throughout the day.

Thanks,
Regards,

David Hohnstein
