Application acknowledged as received on July 11, 2012. Now that most of our technical staff are back from annual vacation a preliminary admin and technical review has been completed. It is noted that annual reports for 2010 and 2011 have not been received. I would suggest that a combined report be provided for both years. If there was no activity on the project site we will accept written confirmation of same. If not, the attached form should be used to submit your reports.

A project summary in English and Inuktitut is required prior to our external distribution for review. Please forward both to my attention.

Fees may be paid by cheque, money order or Visa. The fees owing are $30.00 for administration of this amendment and $62.05 for water use fees which were due on November 3, 2011. These fees are due and payable prior to issue of the requested amendment. Also attached is information pertaining to payment of water use fees.

If Chris will be working on this file, as a consultant for Commander, we will require written authorization from Commander Resources to that effect. Please provide authorization to my attention.
