Subject:	Re: 121010 2AM-MRY---- Date and Proposed Agenda for Preliminary Technical Meeting
Date:	Monday, October 15, 2012 3:01:41 PM

Good afternoon Phyllis,

Thank you for the agenda for the preliminary technical meeting for Baffinland's Type A Water Licence Application. There are a few clarifications the Water Resources Division may require in order for us to better prepare for the preliminary technical meeting and they are as follows:

- Item #3: IR's and Responses - Please confirm whether this is in regards to the completeness review submitted with Information Requests for the FEIS (submitted on March 30, 2012). It is unclear whether the Proponent will be presenting their responses to technical review comments (15 minutes per intervenor) or whether the intervenor has 15 minutes to discuss the Proponent's responses to our comments in the completeness review submitted on March 30, 2012.

- Item #7: Addendums to technical review comments - Please confirm that these addendums include additional comments we would like to add and/or changes we would like to make to our June 22, 2012 submission (following the NIRB Final Hearing, NIRB Final Hearing Report, and Proponent's Response).

If a brief description can be added to each of the above items to clarify the topic, reference the document, and identify intervenor responsibilities, I believe it would greatly assist us in our preparation for the meeting.

Thank you,

Jean

Attached for your information is correspondence and a proposed agenda relating to a preliminary technical meeting, by way of a teleconference, scheduled for October 18, 2012 at 7:00 am MST for the Mary River Project. Please note the NWB requests that interested parties provide comments on the agenda by October 15, 2012. Together with the comments provided for the agenda or in separate correspondence, parties should indicate to the Board the number of participants and names of their representatives who will be participating in the teleconference. The NWB will release the final version of the agenda and the list of participants in advance of the meeting.

Please note the following link to submissions recently received from NIRB, EC, NRCan, AANDC, and QIA
