Subject: 2BE-WAL0607 and 2BE-CWL1116 Inspection Report August 10 2012

Hello Mr. Goad,

Please find attached my report of the August 10 inspection, which affects the two licences listed above. As you will see in my report, the 2007 remediation of site was not complete, and the 2011 Land Use Permit closure was made in error.

I am requesting that the NWB revisit the decision to cancel the 2BE-WAL0607 licence based on the current information, and to defer closure of the 2BE-CWL1116 licence until the site work is completed.

Regards,

Eva Paul
