The NWB acknowledges receipt of your application for approval without a licence. In order to complete the application our office requires the following, in accordance with the attached Guide (please refer to section 4). Once all information is received your application will be forwarded to a technical advisor for assessment.

Regards,

Hello Phyllis,

Attached is our completed application for approval without license with the scanned sign page and agent letter.

We also sent off to your office by courier on Wednesday the completed assignment application with the supporting documents.

I hope this is satisfactory and if there are any questions, please feel free to contact me.

Best regards,

Trevor Boyd

Subject: 130716 2BE-FER0712 Renewal/Assignment

Good day Trevor:
Our office has discussed the situation at Ferguson Lake and has determined the following:

The current licence for the project expired on July 1, 2012. We currently have an application for renewal that did not go through the full process prior to receiving a Notice of Intention from Price Waterhouse on March 13, 2013.

Your company is in the process of submitting the assignment application, however, in the meantime it is understood that you wish to go on site for a very short period of time to do some necessary clean-up.

Provided that the planned activities are minimal the Nunavut Water Board is acceptable to an Approval Without A Licence for a period of one year. The application and guide are attached for your perusal and submission. Please note that simultaneous to this approval we will expect to proceed through the normal channels to issue the assignment and then the renewal in the new company name.

I trust this is acceptable to you and look forward to your application very shortly.
