Date:	Monday, June 18, 2012 8:33:15 PM

Thank you Eva,

We will add the Boston request to a future amendment or modification.

Ang

Subject: Re: FOR APPROVAL: Discharge Notification for 2BB-BOS0712 and 2BE-HOP0712

Hello Angela,

Please consider this message my approval for both the Boston and Windy discharges, upon confirmation that the respective discharge criteria are met. I am on the road and my e-mail access is limited; the last couple of days I was not able to open the attachments. And sadly, it has taken me over 45 minutes to read the messages and attachments, as I keep losing connectivity. So I am sending one e-mail to cover both approvals!

With respect to the Boston discharge, if you plan to continue a practice that is contrary to the conditions of the licence, please apply for an amendment to the licence or a modification to the criteria in the renewal licence.

Regards,

Eva

Hello Eva,

Please find attached a discharge notification, for your approval, for licence 2BB-BOS0712. The discharge notification relates to BOS-2 (Containment Pond and Portal) and BOS-5. In particular, HBML is requesting permission to discharge melt water accumulated in the portal directly to the tundra rather than pumping it first to the containment facility BOS-2, as was approved last year by Ian Rumboldt.

Should you have any questions about this notification, please contact Angela Holzapfel.

Cheers,

Lea-Marie
