Good afternoon Ms. Beaulieu,

RE: 2BB-MEL0914 Agnico-Eagle - 2012 Amendment 4 - Kivalliq Region

The Nunavut Planning Commission (NPC) reviewed NWB file 2BB-MEL0914 as part of NPC File Reference NWB 2BB MEL0914/KIA KVCCL102J168 Meliadine Gold Property Bulk Sampling – Underground Exploration and determined that it conformed with the Keewatin Regional Land Use Plan. I have attached the NPCs determination and the list of terms that the proponent agreed to as part of the conformity review. The list of terms must form part of any authorisation issued for this project proposal.

It is noted that the questionnaire sent with the original NPC determination dated March 2010 was incomplete. A completed questionnaire was provided in July 2010. I have attached the correspondence from NPC to this effect.

The NPC has reviewed the proposed amendment to NWB file reference 2BB-MEL0914 and, based on the information provided in the email below and provided attachments as well as the information referenced on the NWB ftp site, has determined that it does not change the scope of the originally submitted project proposal to an extent that would require an additional review by the NPC at this time.

Should additional amendments to the project proposal be requested , the NPC would respectfully request that they be forwarded so as a determination can be made as to whether an additional conformity review is required.

Please contact me should you have any questions.

Sincerely,

Christopher
