Hi Dave,

Stephen Hartman (Phone: 1 867 645-5733) from KivIA spoke to Phyllis, then Phyllis passed to me, he was asking about NWB possible action (suggesting to discuss, maybe act together?) with respect to the 2BB-MEL0914 Fecal coliforms exceedences at MEL-7 monitoring station. I noted one exceedence in 2011, one in 2012, and it seems AANDC Inspector Andrew Keim raised the issue as it was identified in March 2012 Inspection (also in 2011) with a statement*: STP results show exceedences in fecal colifoms counts consistently every week. The Licensee is to address this and implement proper procedures to prevent the discharge of this material to the environment.*

I said that I will leave the info with you for possible quicker action (if one considered) as being on annual leave .

If the Inspector is only stating about it I don't know what we would do at this stage if not only stating again and requiring the Licensee to be in-compliance?

Thanks,

Karén Kharatyan, Ph. D- ᑲᑎᓐ ᑲᕋᑎᔭᓐ
