Re: Water License # 3BM-HAL0810 Renewal Application for Hamlet of Hall Beach

Dear Ms. Beaulieu:

I am writing you to confirm that the Water License # 3BM-HAL0810 for the Hamlet of Hall Beach expired on May 30, 2010. A renewal application was submitted on April 12, 2010.

According to your e-mail message dated July 26, 2013 to Mr. Ralph Ruediger, Director Community Development, GN-CGS and subsequently telephone conversation with Mr. David Hohnstein, Director Technical Services, NWB dated August 14, 2013, we understand that the renewal document is at stage of final draft and approval for renewal is waiting subject to submission and approval of the Plan for Compliance.

exp Services Inc. has been retained by the Department of Community Government Services of Government of Nunavut (GN-CGS) to develop the Plan for Compliance to satisfy the requirements of the Water License. The latest submission of the Plan for Compliance to AANDC was March 8, 2013. CGS is still waiting for approval of this Plan for compliance by AANDC.

CGS is keeping frequent meeting with the Consultant to implement the action items to meet the target with the support of the following documents:

Appendix-A: The latest version "Plan for Compliance " prepared by exp Services Inc. submitted to AANDC on March 8, 2013.

Appendix-B: Remediation action plan 2013 for the Sewage Lagoon Cell -1 prepared by the consultant exp Services Inc. and submitted to AANDC.

Appendix-C: An inspection of all engineered facilities related to the management of water and waste was conducted by exp's Geotechnical Engineer on July 24 & 25, 2013.

Appendix-D: Field training conducted by exp's trainer following their training manual to Hamlet staffs on July 25, 2013.

Appendix-E: Monitoring Program Quality Assurance/Quality Control Plan (QA/QC Plan) prepared by exp Services Inc. to use by the community.

Appendix-F: Extended Sampling Program following CGS guidelines.

Appendix-G: Lab test Results for Raw water, Waste water and Leachate samples.

Appendix-H: Hamlet Annual Reports for 2011 and 2012.

Appendix-I: Hamlet Annual Water Consumption Reports from 2006-2010.

Appendix-J: O&M manuals for Sewage Lagoon and Waste management.

It is noted that Signs have been ordered and anticipated to be installed by the end of October, 2013.

CGS is closely working and assisting the Hamlet to effectively and efficiently manage the monitoring program identified under Part H of the Water License.

I will appreciate to keep me in the loop of this License approval process.

If you have any question or require further clarification with regards to the above issue, Please do not hesitate to contact the undersigned.

Thanking You.
