Subject:	RE: NWB File: 2BB-MRY1114 Baffinland Iron Mines Corporation - 2011 Annual Geotechnical Inspection Report - Request for Extension
Date:	Wednesday, October 03, 2012 11:28:00 AM

The Nunavut Water Board has no issues with an extension to the date for submission.
Regards,

Subject: RE: NWB File: 2BB-MRY1114 Baffinland Iron Mines Corporation - 2011 Annual Geotechnical Inspection Report - Request for Extension

Good day Phyllis:

Our 2012 Geotechnical Inspection Report on earthworks associated with waste disposal facilities at the Mary River Project is normally due 60 days following the completion of the on-site field inspection which was concluded this year on August 10, 2012. This report is a requirement under Part D, Item 19, of our Water Licence 2BBMRY114. Unfortunately, we have just been notified that the Engineer who conducted the inspection this year and is responsible for finalizing the report is currently on sick leave. This has resulted in a logistical delay in finalizing and submitting the draft report to the Water Board and other parties. In consequence of this circumstance, I request an extension for the submission of the Inspection Report/cover letter with a new submission date proposed for October 31, 2012.

By way of this e-mail, notification of this request is also provided to QIA under Section 6.01 of Commercial Lease No. QI0C3001.

I trust that this minor delay in submission of the report will be acceptable to you. In the event you have any concerns or questions about this request, please do not hesitate to contact me via e-mail or cell.

Kind regards,

Baffinland
