I do see that the co-ordinates provided by the proponent for the new camp are correct in the letter dated Nov 24 2009 but the name of the source water is provided. The old camp used Yat lake as it's source water now the camp has moved 27km east from the old location to an eskar beside Angilak lake.

The proponent knows that the license has the incorrect information on it. With the renewal coming this errors should be corrected to minimize confusion in the future.

Let me know what I need to do to facilitate this

thanks :)

Christine

Hi Christine, FYI the attached was received in relation to the licence amendment issued in January 2010. Does this help?

Regards,

Hi Lady,

Could you please verify this information has been changed or requested to be changed in the new license

2BE-ANG0813

The domestic water body reads Yat lake … it is called Angilak to the best of my knowledge

The camp co-ordinates are N 62° 34' 16.4" W 98° 27' 20.4" not the ones found in the license.

Thank you,

Let me know

Chris
