Hi Christine,

Attached please find an executed copy of the inspection report that you emailed to me on November 27, 2012 as well as an Annual Report for the year of 2007.

In regards to your comments regarding the terms and conditions of this license, specifically modification to Plans Part H item 1 (i, iv) and Part I item 1 as you referenced, I went back in my files and it looked like I had submitted a revised version of the plan however on the NWB ftp site there is a document from the NWB to Stornoway which acknowledges the receipt of the revised plan but still asks for additional changes to be made.

I do not think that I remember seeing this and I do not seem to have a copy of any Spill Plan revisions submitted after that initial one which was changed in response to the terms and conditions of the license.

I will contact Phyllis and see if she wants me to do a new revised plan (our spill plans for projects of this level are now more comprehensive than they were back in 2006) or if that is necessary since there was no work actually conducted and therefore no water was used or waste produced under the authority of this license.

After today I am out of the office until January 2, 2013 so if there are any further outstanding recognized in association with this license they will be addressed immediately upon my return.

Thanks so much for all of your assistance!

Cheers,

Nicole

Hi Nicole,

See attached

-2006 annual report
-Record of Inspection Form
-Signed Licence

I hang up the phone and realize I may not have sent my Record of Inspection (ROI) to you. Please see the opening comments in regards to annual reports.

I have included a copy of your licence for your convenience.

Please look through your license and see if there are any other administrative requirements that may be outstanding. For example Water Use Fees, Annual Reports, modification to Plans Part H item 1 (i, iv) and Part I item 1. I recommend contacting the NWB to get direction on how to meet these terms and conditions since no activity occurred under the license.

All submissions are available on http://nunavutwaterboard.org/ftp/ username public password registry

Sign the bottom of the ROI and return it to me via email or fax 867 979 6445. I will complete a final report for the NWB that will encompass the information you have provided to me in regards to activities and send you a copy of my final report but I recommend fulfilling administrative requirements first so that we avoid having outstanding compliance issues.

Let me know how I may assist.. If you have any questions feel free to call or email me.

Christine
