Good afternoon Susan

Thank you for the update on your application. It will not be necessary for you to resubmit the application and associated documents already submitted as per what's on our ftp site at the moment. All we would need is an assurance from the Hunters and Trappers Organization indicating that issues have been resolved and they have no further objections to the file moving forward.

The ftp link is as follows, when prompted the USERNAME is *public* and the PASSWORD is *registry*
ftp://nunavutwaterboard.org/1%20PRUC/2%20MINING%20MILLING/2B/2BE%20-%20Exploration/2BE-FPC----%20Canada%20Coal/1%20APPLICATION/
Regards,

Subject: RE: 130917 2BE-FPC---- Request Update on File-OMLE

Hello Phyllis,

Thank-you for your email. I have just returned to the office after 2 weeks abroad, so please excuse the delayed response.

Canada Coal conducted its July 2013 community consultation with Grise Fiord, and overall was pleased with the response from the community. Unfortunately, due to seasonal hunting patterns, many of the local hunters and trappers from the community were unable to attend the July meeting. Canada Coal has committed to returning to the community for further consult late October 2013 (tentative dates are now set but awaiting confirmation).

Canada Coal has asked NIRB and its counterparts to extend the application resubmission pending further community consult. The revised deadline for application resubmission is November 12, 2013.

I will make sure that you receive the revised water licence application along with any other necessary supporting information, such as our water management plan, before November 12, 2013.

Please call me (or email) if you have any additional questions or comments, kind regards,

Susan O'Donnell, P.Geol.,

Good morning, on May 31, 2013 our office received the attached advising that a revised Application would be forthcoming for the above file. This was based on our letter of the same date (also attached) Please provide an update on when we can expect the necessary submissions to move forward with the file.
