Subject:	RE: 120522 2BE-GOO1015 Amendment 3 Approved
Date:	Thursday, June 14, 2012 3:50:27 PM

Good Afternoon,
I wanted to contact you to provide the status of responding to the terms and conditions outlined in the 2BE-GOO1015 amendment 3. One reason is so you have a sense of when the revised submissions will be forwarded to your office, the other is to outline that some of the Plans are currently under review and with upcoming inspections in July the revised version may not be available (ie camps will be operating under the current approved version or implementing changes outlined in the Plan currently being generated).

Under the amendment 3 terms, the earliest submission are construction plans for the airstrip and connecting road, 30 days prior to start of construction. These plans were submitted with the amendment request in March 2012 and a notice of commencement was distributed May 25, 2012. Once phase 1 is complete, as-built drawings will be submitted as outlined in the license amendment terms and conditions.

Currently being developed for submission by July 22 (60 days after amendment issued) are:
- Spill Contingency Plan
- Abandonment and Restoration Plan

The Quarry Development Plan is also listed as being needed 60 days after amendment issued; however for a variety of reasons the timing of construction has changed and the quarry won't be accessed during the 2012 season. Sabina is proposing development and submission of the Quarry Management Plan over the 2012 season for submission Oct 31, 2012; with this submission would be an outline of Phase 2 work for the airstrip and road.

If you have any questions please contact Matthew Pickard or me.
Elizabeth
