Good afternoon Matthew, The NWB has no issues with your request to delay submission of a revised Spill Contingency Plan and revised Abandonment & Restoration Plan.
Regards,

From: Matthew Pickard [mailto:MPickard@sabinagoldsilver.com]

Subject: Submissions identified in 2BEGOO1015 amendment 3

Phyllis,

The Amendment No.3 to Licence No. 2BE-GOO1015 Type "B", was issued May 22, 2012 to Sabina Gold & Silver Corp. by the Nunavut Water Board (NWB) (Motion 2012-00-L13). The amended terms and conditions included the submission of a revised Spill Contingency Plan (SCP) and revised Abandonment & Restoration (A&R) Plan within 60 days of the amendment 3 issuance; these are part H item 5 and part I item 16 respectively.

Since the issuance of this amendment, the AANDC Water and Land Resource Officers have completed a site inspection in early July 2012 related to this water license and associated land use permits. The 2011 inspection report has also been recently issued and posted on the NWB website on July 17, 2012.

In light of the comments submitted during the amendment 3 application process and the feedback from the AANDC Officers during their inspection in early July, and the recent availability of the 2011 inspection report, we respectfully request that the deadline to submit the revised the SCP and A&R Plans be extended to September 28, 2012.

Sabina has taken steps to meet the required deadline, however with the recent comments from inspectors we would like to review current standard operating procedures and the current Plans. We would work to incorporate all comments prior to submission rather than submit the documents by the deadline and then revise and resubmit in the Fall.

Thanks, Matthew
