Good Morning Phyllis,

We were finally able to come to an agreement between the NIRB, KIA, the Mackenzie Valley Land and Water Board and the Wek'eezhii Land and Water Board as to who has jurisdiction over the Article 41 lands. It has been agreed by all parties that the Article 41 lands permits and licences will be issued and managed through the Wek'eezhii Land and Water Board (or the Mackenzie Valley Land and Water Board if there are some transboundary issues) therefore we will not need to include the Contwoyto Project in our NWB licence.

My apologies for all the disorganization and submissions, amendments, retractions etc! The process for the permitting of this area had never been properly ironed out so it has been a bit of a kafuffle.

Please let me know if you need me to do anything on my end or if we are still fine to move forward.

Thanks very much for your patience and help,

Tara
