Subject:	AREVA - Kiggavik NWB Licence
Date:	Tuesday, June 11, 2013 4:02:55 PM
Importance:	High

Good Afternoon,

Although AREVA mobilized a small crew to the Kiggavik site on June 10, the site personnel are aware that we await the issuance of the water licence. To accommodate this they have been working in camp, however the majority of personnel will spend evenings in Baker Lake until the licence is issued. Potable water has been provided in jugs from Baker Lake, and the kitchen water is being contained until the authorization to discharge via the licence is approved. Should there be any domestic waste accumulated during the day, it will be bagged and stored in the seacans on site until the licence is issued. The staff will travel from Baker Lake each day to continue opening the camp. The charter for the remaining contractors and AREVA personnel has been rescheduled for Saturday June 15, 2013.

Should you have any questions or comments, don't hesitate to contact myself or John Robbins at (306) 343-4513.

Regards,

Naomi Stumborg

Subject: AREVA - Kiggavik NWB Licence
Importance: High

All –

The Kiggavik licence renewal application for exploration activities was submitted to the NWB on October 22, 2012. AREVA and the NWB have communicated regularly during the 7 months

following the application submission and the NWB has not communicated any technical or procedural issues to AREVA that require resolution prior to approval.

The NWB communicated an expected approval by June 10, 2013 and AREVA has received a receipt for payment of water usage fees issued to the Board as part of the permit process. Given the absence of technical and procedural issues and an expected approval date, AREVA has mobilized exploration staff who are currently at site and unable to use water. There is a chartered flight scheduled to bring the additional AREVA and contractor staff Wednesday June 12, 2013. Can you please advise the date of the next Board meeting that would approve this licence renewal or alternatively, the willingness of the NWB to provide a written interim approval.

As exploration work in the north occurs over short time periods, your attention to this matter is greatly appreciated.

Thank you,

Naomi Stumborg
