Date: Friday, August 17, 2012 8:42:00 AM

For your information this file is now complete from our end and has been re-loaded to the ftp site. According to our records the following is noted.

1. No annual reports have been received and are outstanding for 2006 and 2007

2. Water use fees are outstanding in the amount of $365.00

Regards,

Subject: Information on North Central Baffin Project, Water licence 2BE-NCB0608

Hi Alexander,

As per our conversation, I am sending you the information that I have found regarding this BHP water licence. No file for 2BE-NCB was identified on the Nunavut Water Board's ftp site, so I will make a request to see if we can get it (re)posted.

As per our research, see the attached information: I could find no Annual Reports (a requirement under the licence) confirming where the camp was located, fuel caches or drill sites (if applicable) or confirmation of work that was done. According to your licence application questionnaire, work was anticipated for the 2006-2007 season.

We are looking at flying over the area on August 6th to confirm the status of the site(s). Hopefully you will be able to assist in finding this information and we can work together on closing this file. Please confirm receipt of this email, so I know I've got your email address correct.

Best regards,
Melissa
