Subject:	Amendment Request of March 1, 2013 for Licence 2BE-PBP1115
Date:	Wednesday, April 10, 2013 9:29:45 AM

Dear Phyllis:

As I mentioned last week, our plans have changed drastically since our amendment request of March 1.

We will not be doing any work in early May and will not require an increase in our water use from the current allotment. Our current allotment of 120 cubic metres will be more than enough to satisfy the requirements for our new plans that have us starting work in late June.

As well, we will not be using a bulldozer or the new ATV's that were mentined in the amendment request.

The only new items noted in the amendment request that will be retained, are the use of a Ford F250 pick-up and the installation of weatherhaven tents over our existing tent floors.

I will forward a cheque to cover the water use fees that you so graciously calculated for me.

Best regards,

Dwayne
