Re: Extra Application Information

The Nunavut Water Board received an application from Nanisivik Mine, a division of CanZinco Ltd. on February 16, 2001 for the renewal of the above licence. Currently, the application is being reviewed by NPC for conformity with the appropriate Land Use Plan. When this is completed, and when the application is sent to NIRB for screening, the application will also be forwarded to the distribution list.

Nanisivik sent a document titled "Lethal and Sublethal Bioassays on Tailing from Nanisivik Mine Ore" along with their application. As this is a large document, I am already mailing it to certain parties, so that you will have it on time for the application review.

Sincerely,

Rita Becker
Licensing Administrator
