Subject: RE: NPC Conformity Determination for LUP Applications CAMECO Feb 2012
Date: Wednesday, February 01, 2012 8:41:01 AM

Good morning Mr. Zaluski;

Confirming receipt of your email as well as related attachments regarding Cameco's request/amendments for the Turqavik and the Aberdeen exploration projects. The NPC has to this point initiated the conformity review with the Keewatin Regional Land Use Plan of the attachments you provided. Upon completion of the review, the NPC will determine whether a review form (questionnaire) is required or that the previous review can be extended to this current request.

It is appreciated that you have forwarded a copy of all relevant land use applications as listed below, the NPC will also wait for the file numbers and a copy of application you sent to the authorizing agencies, in this case AANDC, KIA and the NWB. This practice ensures that the NPC and the authorizing agencies are reviewing an identical proposal.

Mr. Zaluski, yes please provide NPC with associated maps and documents.

The NPC will provide you with its decision shortly after we receive the required items from the respective authorizing agencies.

Any questions concerns, please do not hesitate.

Thank you,

Brian Aglukark, NPC
Arviat

Subject: NPC Conformity Determination for LUP Applications

Hi Brian,

Sophia Granchinho at NIRB gave me your contact information in regard to NIRB screening documents for our INAC LUP, KIA LUP, and NWB renewals and amendments. We are renewing our land use permits and water license for our Turqavik and Aberdeen exploration projects west of Baker Lake, with amendments to cover the construction of a new camp and also bulk fuel storage. We have submitted all required applications to the relevant boards but I was told we require conformity determination to be done by NPC. Attached are the INAC, KIA, and NWB permit applications and the non-technical proposal in English and Inuktitut. If you require all the associated plans, maps, and documents, please let me know and I can e-mail them to you.

Please let me know if I need to fill out a questionnaire or other documents related to the conformity determination.

Best regards,

Gerard
