Good Morning Mr. Dufresne,

As previously discussed 2BE-RAI0611 is eligible for closure.

Complete the annual reporting duties and submit any outstanding water use fees, so that I may recommend it for closure.

Need I remind you, expiry of this license does not absolve Xstrata's responsibility to fulfill the terms and conditions which include PART B item two: annual reporting requirements (see attached license).

Feel free to contact myself or Nunavut Water Board at anytime for guidance with compliance or the term and conditions of your license.

Thank you for your cooperation,

Regards,

Christine Wilson

I am reviewing your licence for cancellation and have a few concerns the Administrative requirements found under PART B of the license (see attached) and outstanding since issuance.

As per Part B item 2 -The Licensee is required to submit an annual report regardless of the water use or activities of the project.

I have attached for your convenience a guide for annual reporting and a standardized annual reporting spreadsheet. All reports must be submitted before this license can be recommended for cancellation by an Inspector.

Any parts of the annual reporting sheet which do not apply exclude.

Could you please provide more information about any activities; location, base camp, transport to and from location, staging area and provide as much information possible.

Finally, once the annual reports have been submitted complete a request for cancellation of the license (see attached document) and submit to the Manager, Licensing <licensing@nunavutwaterboard.org> at the Nunavut Water Board (NWB) as per Part B item 7 of your License.

If you require any assistance please feel free to contact me or the administration staff at NWB at the email address above.

I would also like to inform you that transfer of the Mineral Claims does not transfer the liabilities for the water license. All forms must be signed by Xstrata as they are the Licensee for 2BE-RAI0611

Failure to undertake the actions required as described in this letter, and to the satisfaction of the Inspector, may result in enforcement action(s) being undertaken pursuant to the *Nunavut Waters and Nunavut Surface Rights Tribunal Act*.
