Subject:	Final inspection 2BE-SIP
Date:	Tuesday, April 30, 2013 2:36:43 PM

Good Afternoon,

I have received Vale's request for cancellation of there Water Licence; 2BE-SIP. Unfortunately I planned my charters for the inspections in the North East Kivalliq last month therefore I may be unable to complete a final inspection this field season without assistants.

Does Vale have plans to positioning a helicopter in Coral during the 2013 field season (any dates I may be flexible)?

I ask because I will be in the Kivalliq region numerous times this summer and may be able to fly over to South Hampton Island on a Scheduled flight and complete an inspection if a charter is available.

Thank you for your time,
