---

Mr. Warner,
I am writing in response to your letter of May 17, 2012, File:Y14101501 requesting information with respect to specific sites within the hamlet of Arviat, NU.

The Hamlet in the past has held a Type B water licence no. 3BM-ARV 0308 for water use and waste disposal (sewage and solid waste) for the community and now currently holds a Type A Water licence no. 3AM-ARV1015 for the same undertaking. I've searched through our public register for the annual inspection reports and compliance related directions from the Inspector (Aboriginal Affairs and Northern Development Canada, AANDC, previously Indian and Northern Affairs Canada, INAC) which included inspection reports for 1996-2009 for the type B licence and 2010 and 2011 for the Type A licence, and did not find documentation related to spill reporting or directions issued for the Hamlet. The report of 2004 attached, did make reference to spills 'behind the garage' not being reported or cleaned up, however, without the proper mapping (and knowing where this garage is located) I would not be able to cross reference this reporting with the sites that you have provided legal descriptions for.

The Hamlet of Arviat, or the Government of Nunavut, Community and Government Services should be contacted for related information, as well, you might want to contact AANDC Manager of Operations (867-975-4295) for further information as the NWB public registry may not hold all correspondence from the Inspector (ie letters of Direction).

If you require any further information or clarification, please do not hesitate to contact me at your convenience.

Regards,

David Hohnstein
