Good morning Karen,

Due to current lack of resources in our office we did not have time to review the amendment information submitted by the Proponent. Therefore, we felt that notifying the Nunavut Water Board that "*EC is unfortunately unable to review the information provided at this time*" was more appropriate than indicating we do not have information requests, or not providing a response at all. I hope this provides some clarification regarding the letter submitted by EC on September 20, 2013.

Please feel free to let me know if you have any further questions.

Kind regards,

Loretta

Good morning Loretta,

The NWB received your submission with respect to the Rankin Inlet Water Licence Amendment Application stating that *EC is unfortunately unable to review the information provided at this time.*

Could you clarify what this means? This is unclear whether or not EC has not additional Information request to assess the application or for some reasons (?) was unable to review the information included in the application?
