Good afternoon Paul,
I've taken the opportunity to review the two RFP's you have provided for the Water Balance of Geraldine Lake and the Supplemental Water Supply. At this time I have no comments on the water balance item. For the supplemental water supply, I was unable to find an area that addressed the potential impact(s) to other users, would identify other users or compensation to other users as required by the Act under sec. 48.3, 58 or 60. As part of the assessment of the supplemental water source, a determination of traditional use or other users may be of concern. It would be beneficial to determine if these areas need to be addressed prior to moving towards an application for amendment and needing to provide that information at that time.

Hope this is of some assistance,

David Hohnstein
DTS, Nunavut Water Board

Hi Phyllis,

Have you been able to review the terms of reference for the Water Balance and Supplemental Water Supply? Do you have any comments?

Thanks,

Paul Clow

Good day Paul. Acknowledged as received and is being assessed/reviewed internally for a response.
Regards,

Importance: High

Hi Phyllis and David,

I am just wondering if you received my emails on Wednesday September 5, 2012 regarding our Water Balance of Lake Geraldine and Supplementary Water Supply Plan for Lake Geraldine Projects.
