---

Good afternoon Veronica,

RE: KIA File KVX13G02

Thank you for your email.

The Nunavut Planning Commission (NPC) reviewed the above noted file as part of NPC file reference [NWB 3BC-C0A] Coats Island Research - Environment Canada and determined that it conformed with the Keewatin Regional Land Use Plan. I have attached the list of terms agreed to by the proponent as part of the conformity review. The list of terms must form part of any authorisation issued for this project proposal.

Having reviewed the attached application and supporting documents provided, the NPC has determined that the scope of the originally submitted project proposal has not change to an extent that would warrant an additional review by the NPC at this time.

Should the scope of the project change, NPC would respectfully request that the proposal be forwarded so as a determination can be made as to whether another conformity review is required.

I have copied the Nunavut Impact Review Board and the Nunavut Water Board with this email for their information. The NPC conformity determination referenced as part of this email corresponds with all works and activities associated with this project. NPC would respectfully request that you update your files accordingly.

Please contact me should you have any questions.

Sincerely,

Christopher
