The NWB acknowledges receipt of the above application for renewal on August 4, 2013. The file will undergo an internal review prior to distribution for comments. Our understanding is that you would prefer an approval without a licence for this small research project. I would therefore recommend that a final AR report be provided with your annual report for 2013, including photos of the project area. This will assist Aboriginal Affairs in making a final determination for closure of the Type B file.
