Subject: RE: 3BC-PLI0811 Renewal - Prince Leopold MB Sanctuary Project by Environment Canada CWS

Good morning Sean,

RE: 3BC-PLI0811 Renewal - Prince Leopold MB Sanctuary Project by Environment Canada CWS

The Nunavut Planning Commission (NPC) reviewed the above noted project proposal as part of NPC file reference 3BC-PLI - Prince Leopold MB Sanctuary - Environment Canada CWS and determined that it conforms with the North Baffin Regional Land Use Plan. I have attached the NPCs determination and the list of terms that the proponent agreed to as part of the conformity review. The list of terms must form part of any authorisation issued for this project proposal.

It is noted that the incorrect Regional land use plan was referenced in the original NPC conformity determination letter dated September 26, 2008. The letter incorrectly sited the project proposal as conforming to the Keewatin Regional Land Use Plan. The letter should reference the North Baffin Regional Land Use Plan. I have corrected and initialled a copy of the original letter and have attached it with this email for your records. I have updated the NPC records accordingly.

The NPC has reviewed the renewal request for application NWB reference 3BC-PLI0811 Renewal - Prince Leopold MB Sanctuary Project by Environment Canada CWS and, based on the information contained in the NWB application , has determined that it does not change the scope of the originally submitted project proposal to an extent that would require an additional review by the NPC. Should further amendments to the project proposal be requested the NPC would respectfully request that they be forwarded so as a determination can be made as to whether an additional conformity review is required.

Please contact me should you have any questions.

Sincerely,

Christopher

Good morning, Brian:
Could you please confirm whether or not the attached Conformity Review is appropriate for the region in which the project is located. Also, if the project is location in a region that is distinct from that stated in the Conformity Review, would it be possible to provide an amended review or determination.

Regards,

Sean Joseph
