---

In May 2012 the Nunavut Water Board ("NWB") received an application from Windfall Films for a Type B water licence. This project was placed on hold by the applicant until 2013. We have now received notification to commence processing this file. From the information received to date this project is in an area which requires conformity to an approved land use plan. Pursuant to Article 11 of the Nunavut Land Claims Agreement (NLCA), the proposal must be sent to the Nunavut Planning Commission (NPC) for a conformity determination. By copy of this email to NPC the NWB is requesting a conformity determination. Once a determination is made the NPC will forward the information and recommendation to the Nunavut Impact Review Board (NIRB) to carry out a screening of the project proposal in accordance with Article 12 of the NLCA. Please forward all correspondence relating to this file to the NWB.

All correspondence pertaining to the file is available on our ftp site (USERNAME public) (PASSWORD registry) at the following link:
